

Bharath Yanadi

Tirupati, India | bharath.working2@gmail.com | +91 8309435394 | www.linkedin.com/in/bharathyanadi

Career Objective:

Motivated and enthusiastic B. Tech graduate, waiting for a challenging role in a reputable organization where I can utilize my technical skills, enhance my learning, and contribute to the success of the organization while growing professionally.

Education

- **Bachelor of Technology in Electronics & Communication Engineering**
Sree Vidyanikethan Engineering College 2020-2024
CGPA : 8.5/10

Professional Training

Java Full Stack Development Training | JSpiders | Bangalore | Mar 2025 – Dec 2025

Currently undergoing intensive training covering **Java Core, Advanced Java (JDBC, Servlets), Spring, Hibernate, and front-end technologies (HTML, CSS, JavaScript, React.js)**. Gaining practical experience through multiple hands-on projects, emphasizing best practices in object-oriented programming and database management.

Projects

Student Management System

Technologies used : Java, Hibernate

- The **Student Management System** is a CRUD-based application built using **Java and Hibernate ORM** for managing student records in a college or training institute.
- The system allows administrators to **add, update, view, and delete student data** such as name, email, course, and date of birth.
- Hibernate handles all database operations using **ORM mapping**, making the application scalable, secure, and easy to maintain.

Image Encryption

Technologies used : Matlab, Cryptography, MS Word.

- Developed a secure image encryption system using MATLAB, ensuring data confidentiality and protection against cyber threats.
- Conducted a comparative analysis by measuring encryption & decryption time, key strength, resistance to attacks.
- Utilized MATLAB for image processing and cryptographic simulations, enhancing data security applications.
- Implemented and analyzed multiple encryption algorithms, including AES, DES, RSA, and Light Weight Ciphers, to evaluate their efficiency in terms of speed, security, and computational complexity.

Technical Skills

Programming Languages : Java (OOPS, Exception Handling, Collections, Multithreading, JDBC, Servlets).

Web Development : HTML & CSS , JavaScript, React JS.

Database Management : SQL, My SQL .

Tools/ Editors : Eclipse , VS Code, Pg Admin, Oracle.

Frameworks : Hibernate, Spring basics.

Internships

Internshala Trainings | Oct 2024 – Nov 2024

Power BI Intern

- Built **interactive Power BI dashboards** to analyze airline operational and passenger data.
- Cleaned and transformed raw flight data (delays, cancellations, routes, passenger counts) using **Power Query**.
- Collaborated with the data team to clean and transform datasets from SQL and Excel.
- Provided insights into **delay patterns, peak travel times, and customer trends** that supported business decision-making.

Suven Consultants| Feb 2024 – April 2024

Open AI GPT & ML

- Interned at **Suven Consultants & Technology Pvt Ltd** working on OpenAI GPT / ML-based projects.
- Developed multiple prototype applications using **GPT-3/3.5** APIs for tasks such as text completion, semantic search, and chatbot assistants.
- Produced reusable modules, documentation, and final evaluation report for stakeholders.

Certifications

- Java Full-Stack Development Training.
- Excel Champs certification - Excel formulations.
- MePro Certification - Advanced English.
- Cyber Security Essentials by Cisco Networking Academy.
- Entrepreneurship by Coursera.
- Critical Thinking & Adaptability skills by Coursera.

Strengths

- Time Management
- Adaptability
- Creative Thinking
- Leadership & Communication Skills
